SONICMOTOR
PAINT PROTECTION FILM

Why Choose SONICMOTOR® Colored PPF?

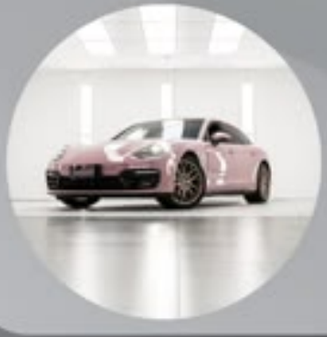

Real Paint Glossiness

SonicMOTOR Colored PPF(Wet Apply) adopts PNST/real paint structure technology which makes sure the film without any orange peels and makes it feel like a paint.

Hydrophobic& Anti Fouling

SonicMOTOR patented PPF nano coating technology is used to make the film shiner, stronger anti-fouling and hydrophobic ability, which keeps the car look shine and maintanance friendly.

Warranty & Assurance

Comparing to the Vinyls Color-change film, SonicMOTOR Colored PPF has longer durability which lasts to 5 years warranty with a high quality color change experience.
